

The Trucker Scorecard is a tool that measures trucking company performance using a normalized score based on appointment performance, highlighting both top and bottom performers. It helps marine terminal operators by quantifying appointment events such as missed, canceled or rescheduled and completed appointments; the scorecard value is the average value for each SCAC.

Trucking Companies	Appointments	Average Score	Total Missed Appointments
249	24,965	79.86	6469

Top 10 by Total Appointments

SCAC	Trucking Company Name	Score	Appointments	Missed	Rating
